

	Term 1	Term 2	Term 3
Year 7 ICT	The ICT curriculum begins by examining security, password protection and how to set secure passwords. Online dangers are introduced for example hacking and online scams such as phishing. Pupils are introduced to the concept of their own digital footprint and made aware of how it can be seen by others. Pupils will also discuss reporting issues and how to seek support.	On 11 th February it is Safer Internet Day. The head of ICT will deliver an assembly to each year group. This will be followed by tutor time activities that reinforce the theme. The ICT department will launch a competition to all students. Information and advice will be uploaded onto the school website for parents and this will be promoted by the academy through our twitter account.	During the last week of term pupils will be reminded about general safety and online safety. This will recap on e-safety issues for example how to post safely online and threats from online predators.
Year 8 ICT	The first 3 lessons of the scheme examine security on pupils' online profiles, understanding the dangers of speaking to strangers online, grooming, sexting and online predators. Pupils will also revisit the concept of their digital footprint. Pupils will also discuss reporting issues and how to seek support.	On 11 th February it is Safer Internet Day. The head of ICT will deliver an assembly to each year group. This will be followed by tutor time activities that reinforce the theme. The ICT department will launch a competition to all students. Information and advice will be uploaded onto the school website for parents and this will be promoted by the academy through our twitter account.	During the last week of term pupils will be reminded about general safety and online safety. This will recap on e-safety issues for example how to post safely online and threats from online predators.
